

ST AUSTELL BAY | PARISH
COUNCIL

SERVING OUR COMMUNITY, PRESERVING OUR HERITAGE
SERVYA AGAN KEMENETH, GWITHA AGAN ERTACH

The **Environment & Climate Crisis Action Group**

OUR CARBON FOOTPRINT

Carbon Footprint is a measure of the amount of carbon dioxide released from all our actions such as eating, shopping, travelling and generally living!

The lower the figure, the better for the environment, with an aim of net zero.

The average per household carbon footprint* for our parish is higher than the UK average so how can we reduce it?

- * **Try to make our homes as energy efficient as possible**
- * **Travel less, use public transport, car share; walk or cycle more**
- * **Limit meat consumption, especially beef. Eat seasonal products, locally sourced**
- * **Buy less, buy better and make it last**
- * **Have a go at calculating your own footprint, e.g. www.footprint.wwf.org.uk is an quick and easy one**

*Based on data from Impact: Community Carbon Calculator
