## **Greener Spring Cleaning**

**There are so many cleaning products available but before you buy think of the cost to the environment of all those chemicals and all that plastic. There are GREENER ways this Spring!**

- \* Lemons can be used as a natural cleaning solution and deodorizer.**
- \* Vinegar can be diluted to use as an all round cleaner & it removes mould.**
- \* Soda crystals soften water, dissolve grease, tackle dirt and stains and so much more!**
- \* Use washable cloths instead of paper towels and wipes. You can even repurpose old fabrics for cloths.**
- \* Swap your synthetic sponges for natural sponges or other biodegradable materials.**
- \* Think before you buy. Remember the repercussions of overconsumption and the damage harsh chemicals can do to our planet.**
