### \*GREEN SPRING CLEAN\*

So many cleaning products on the market contain chemicals and are packed in plastic which are detrimental to our health and the health of our planet

#### So how can we be greener?

- \* Use lemons as a natural cleaning solution and deodorizer
- \* Stop using paper towels and wipes which can't be recycled. Use washable cloths instead
- \* Vinegar can be diluted for use as an all-round cleaner and it removes mould
- \* Soda crystals soften water, dissolve grease, tackle dirt and stains and so much more!
- \* Wash at 30 not 40 degrees and dry outside if you can.
- \* Repurpose old toothbrushes and nailbrushes to get in those awkward areas
