

Notes of Meeting 12 October 2021

Environment and Climate Crisis Action Group (ECCAG)

Present: Jackie Bull (JB), Nigel Chatterjee (NC), Trudy Reynolds (TR), Pat Smith (PS).

Digger and Doers

TR said that she had received several responses to the flyers. There were two areas still to be delivered. TR said that the first session had gone well and another was organised for 13/10/21, both were clearing brambles etc along the pavement near Charlestown School. Daffodil planting was planned for w/c 25th October.

As projects come up everyone on the database would be contacted and invited to join.

PS supported the use of social media to get our message out to the community and the importance of the community working together.

JB suggested a coffee morning is held (probably in November) for the volunteers and to invite the Chandlers Walk group who could talk about what they had achieved.

Wildflower Seeds

PS suggested wildflower seeds were purchased. Suitable locations were discussed as landowners approval would be required. JB suggested they could initially be planted at Chandlers Walk as the site was already being used as a community space.

Budget

The cost of the seeds was discussed with a range of proposals being made from buying them within the group itself, the PC, the community chest fund held by James Mustoe to grant funding.

It was unresolved at this meeting as to whether or not a separate budget for the ECCWP should be held.

Climate Change Action Plan

TR had previously circulated the Council's Climate Emergency Up-date which had been produced in September 2019. Discussion was held on this document with suggestions made to get it up-dated. TR will prepare a first draft and circulate to the rest of the group for comments.

Next Meeting

Next meeting would be on 2 November 2021. (Subject to confirmation).
